Public support for companies

EAST YORKS: Hull Business Forum's latest event, entitled An Inconvenient Region, will showcase all the public support that is available for businesses both large and small.

Sixteen organisations will make a pitch about what they can offer and then people have two hours to visit their stands, talk directly on your issues and have the chance to win a green prize.

The event takes place at Forest Pines, near Brigg, on Wednesday

September 9, and at the University of Hull in Cottingham Road on the same day.

On Wednesday September 16, businesses have the chance of a free coach trip to Recycling and Waste Management (RWM) at the NEC in Birmingham.

Last year, RWM had more than 500 exhibitors and 9,000 visitors. For more information about the network is available by visiting www.humberenvironmentalnetwork.co.uk
